

# WE'RE BACKING STANSTED

# WELCOME

Today, London Stansted Airport is proud to be the fastest growing major airport in the UK and is almost unrecognisable from the one which MAG acquired in 2013.

We have invested £150m in upgrading the terminal, added nearly 10 million passengers per year, virtually tripled the number of airlines and added over 40 new routes - and in doing so have brought a new ambition to the airport.

But this is only the beginning for us – Stansted has real momentum and we are predicting continued strong and sustainable growth and expect to reach our current permitted limit on passenger numbers in the early 2020s. We have evolved in a phased and managed way over the last 25 years, and we believe that it is the right time to set out the framework for the next phase of the airport's growth.

We are seeking permission from Uttlesford District Council to allow the airport to make best use of our single runway, within our pre-existing flight limits and agreed noise footprint. A new Arrivals Terminal will be the centrepiece project of our £600 million transformation and this further investment will improve the airport experience for passengers and crucially ensure that the wider economic benefits that flow from our operation continue to be felt in our local region.

We have been overwhelmed by the hundreds of local residents, businesses, staff and other stakeholders who have already demonstrated their support for our future vision and recognise the positive impact that the airport has on their lives and communities.

With the Planning Committee date approaching, we are urging you to support your local airport if you have not done so already. For more information, please visit [www.ourstansted.com](http://www.ourstansted.com).

**Ken O'Toole**  
Chief Executive, London Stansted Airport

*London Stansted is very much an asset for the growth of the economy of Essex, the surrounding areas of the East of England and the UK as a whole and its ever increasing connectivity is a major attraction to companies looking to establish a presence or further develop their business. Invest Essex supports an engine of growth within the Essex economy.*

David Rooke,  
Location Services Director, Invest Essex

# TO STIMULATE OUR LOCAL ECONOMY

# WE'RE BACKING STANSTED

# TO INVEST IN OUR REGION'S FUTURE

*Harlow College is proud to be working with London Stansted Airport to run the unique new college at the airport. We firmly believe in providing students with a clear line of sight to the workplace and excellent career opportunities and the growth of London Stansted Airport will benefit young people and adults drawn from across Essex to enter the workforce in sustainable local environment.*

## TO CREATE OPPORTUNITIES FOR LOCAL PEOPLE

“Enrolling in an apprenticeship scheme has given me the room to work in an industry I’ve always been interested in, as well as the opportunity to be guided by professionals. I have truly loved every minute of the past four months and I couldn’t recommend it enough. And the discount in World Duty Free is a real perk!”

Ellie Miller,  
Local resident, Creative and Digital Media  
Apprentice at London Stansted Airport

“ My son has been to the Aerozone Education Centre and was overwhelmed with excitement about the history of the airport and the career opportunities available in the future – all local schools should take advantage of this free facility provided by the airport. ”
